Int. J. Pres. Ves. & Piping **53** (1993) 543–545

Contents of Volume 53

Number 1

Understanding and Eliminating Crack Extension Behaviour in Feed Water Deaerator Systems—A Critical Review 1
J. H. BULLOCH (Republic of Ireland)

Knowledge Based Systems for Pressure Vessel Design 23
JOHN LAWSON & JOHN ANDERSON (UK)

The Principle of Critical Energy in the Field of Materials Fracture Mechanics . . 39
VALERIU V. JINESCO (Romania)

Taguchi Methods and Expert Systems in Fabrication Design 45
W. McEWAN, N. BELAVENDRAM & M. ABOU-ALI (UK)

J-Integral and Root Strain of Notch with Elliptical End 61
WEI-QIANG WANG, PEI-NING LI & DING-YI JU
(People's Republic of China)

A Method of Estimating Limit Loads by Iterative Elastic Analysis. I—Simple Examples 75
D. MACKENZIE & J. T. BOYLE (UK)

A Method of Estimating Limit Loads by Iterative Elastic Analysis. II—Nozzle Sphere Intersections with Internal Pressure and Radial Load 95
C. NADARAJAH, D. MACKENZIE & J. T. BOYLE (UK)

A Method of Estimating Limit Loads by Iterative Elastic Analysis. III—Torispherical Heads under Internal Pressure 119
JINHUA SHI (People's Republic of China), D. MACKENZIE & J. T. BOYLE (UK)

A Simple Iterative Key Curve Method for Determining J_R Curves 141
X. C. YIN (People's Republic of China)

The Evaluation of the Structural Strength of Pipes and Pressure Vessels with Axial Cracks 157
V. M. TOROP & I. V. ORYNYAK (Ukraine)

Announcements 179

Number 2

Improved Energy Density Method for Inelastic Notch Tip Strain Calculation and Its Application for Pressure Vessel and Piping Design 183
A. V. TASHKINOV & V. M. FILATOV (Russia)

Int. J. Pres. Ves. & Piping (**53**) (1993)—© 1992 Elsevier Science Publishers Ltd, England. Printed in Northern Ireland

The Influence of Prolonged Exposure to Operating Temperatures and Strain Aging on the Material Properties of Nuclear Power Plant Vessels and Pipings . . 195
G. P. KARZOV, B. T. TIMOFEE & YU. G. FILCHAGIN (Russia)

Experimental Observations of Fatigue Crack Growth in IS-1020 Steel under Constant Amplitude Loadings 217
S. B. SINGH & R. KUMAR (India)

Ligament Yield Stress of Cylinders and Plates with Surface Cracks 229
W. Y. YAN & C. ZHEN (People's Republic of China)

Comparisons of Non-destructive Examination Standards in the Framework of Fracture Mechanics Approach 241
S. REALE, E. CAPURRO & A. CORVI (Italy)

Large Deflection Analysis of Cylindrical Shells on a Pasternak Foundation . . . 261
D. N. PALIWAL & V. BHALLA (India)

Prediction of Fatigue Damage and Fatigue Life under Random Loading 273
W. F. WU & T. HUA HUANG (People's Republic of China)

Computer Aided Design of Multilayer Vessels 299
D. N. PALIWAL, R. K. VERMA, R. KHANNA, R. K. ARYA, R. CHOWDHARY & A. CHOWDHARY (India)

Analysis of Fracture Mechanics Parameters for a Surface Cracked Plate using Nonlinear Lint-Spring Boundary Element Method 325
Z. J. ZENG & S. H. DAI (People's Republic of China)

External Loads on Nozzles 335
C. J. DEKKER (The Netherlands)

Estimation of Boiler Tube Life in Prescence of Corrosion and Erosion Processes 351
K. ZARRABI (Australia)

Book Review 359

Announcements 361

Number 3

Effective Metal Temperature in Creep Life Assessment 363
H. J. WESTWOOD & D. V. LEEMANS (Canada)

The Superposition of Effects Produced by Buckling, Creep and Fatigue 377
V. V. JINESCU (Romania)

Computing the SCF for a Hollow Cylinder with Hoop Groom under Torsion by Means of a Spherical Section Assumption 393
Y. LIU, S. S. ZHOU & S. T. CAI (People's Republic of China)

Discontinuity Phenomena around the Supports of Stepwise-Thickened Spherical Steel Tanks. Part 1: Theoretical Considerations and Parametric Results 405
A. ZINGONI & M. N. PAVLOVIĆ (UK)

Discontinuity Phenomena around the Supports of Stepwise-Thickened Spherical Steel Tanks. Part 2: Numerical Examples and Design Recommendations 437
A. ZINGONI & M. N. PAVLOVIĆ (UK)

Three-Dimensional Fully Plastic Solutions for Semi-elliptical Surface Cracks . . 457
G. YAGAWA, Y. KITAJIMA & H. UEDA (Japan)

Effect of Temperature Variation on Plastic Behavior of S25C Mild Steel 511
Y. NIITSU, A. HORIGUSHI & K. IKEGAMI (Japan)

Stress Intensity Factors for a Pipe–Plate Welded Joint 525
S. B. LAMBERT & R. BELL (Canada)
